

## ART FILES - Software

### Preferred Software:

- ◆ Adobe Illustrator vector art
  - ◆ Photoshop - layered file, not flattened
  - ◆ Vector PDF's
  - ◆ InDesign (Please convert fonts to outlines and save as PDF's)
- We do not accept CorelDraw, Quark, MS Word, Powerpoint.

## WHEN SAVING FILES

Always convert all type to outlines.

Also supply all placed files, or embed them.

## CONVERTING TEXT TO OUTLINES IN ADOBE ILLUSTRATOR INFORMATION TO PROVIDE

1. Select all.
2. From the TYPE menu select CREATE OUTLINES.

## SPOT COLORS

When assigning a specific "spot" color to art or text, please use the Pantone Solid Coated color chart. This will insure that the color you have selected will be reproduced accurately in the final product.

*Art for screen printed spot colors MUST be provided in a vector format.*

## FULL-COLOR IMAGES

Vector or raster artwork is acceptable, although Vector artwork is preferred.

The minimum resolution is 150 dpi, with 300 dpi being the maximum resolution, at actual size.

Both CMYK and RGB are acceptable color models. JPG and TIF formats are acceptable if they meet resolution requirements.

Please make sure that the three letter extension appears at the end of the file name.

*Do not send .gif files for final output (these are low resolution compressed formats which are not acceptable for printing).*
